

THE ART OF TECH INTERNSHIP

Right-brained. Right choice.

The **Art of Tech Internship** is a new collaborative opportunity that provides non-STEM students with full-time, paid internships in London's thriving technology and digital creative sector. Liberal Arts interns* offer unique skillsets and unparalleled resources, making them ideal candidates for organizations seeking the next class of intelligent innovators.

You have a business to grow, and integrating a Western Liberal Arts intern will drive innovation for you, your business, and your customers. It's time to move that passion project off the side of your desk and into action!

Internship requirements

1. Paid, meaningful work experiences
2. Full-time hours
3. 3 to 4 months in length
4. May or June start time

Employer responsibilities

- Assign a mentor/supervisor to oversee projects and provide feedback
- Work with the student to establish learning outcomes for the internship
- Complete midterm and final evaluation

Interested in hiring a Liberal Arts Intern?

You've made an excellent choice! In addition to adding high caliber student talent to your organization, you'll be reimbursed 25% of their salary (up to \$3,000) and may qualify for an additional 25% in tax credits.
